Mining Report Data has never been easier with EZ-Pickin's & BCD Report Management tools -- cut costs, improve workflow

Give Financial, Sales and Management Pros the power tools that improve workflow and reduce printing costs. *Go Paperless!*

EZ-Pickin's makes old green bar reports nearly extinct by transforming them into Powerful Interactive Views. Offer users -- Report Mining, Data Extraction to Excel, Custom Views, Analysis... and more.

End-users achieve this with NO programming, NO re-keying and NO changes to applications. End-users can quickly create models over reports in minutes to improve workflow.

A Gartner Report stated for each report page you avoid printing, you save 6¢ per page. Cut 20,000 pages per month -- save \$1,200 per month.

Use Catapult for Automated Report Distribution -- Spool-Explorer for end-user driven Report Management. Email reports as PDF's, Split, Archive, Forms overlay...

Catapult is the #1 voted Automated iSeries Report Distribution and Document Management tool. Winner of iSeries News and Search400.com Awards.

Automated Operations. Auto-email reports as PDF's, Excel attachments, Split reports, Archive, Forms overlay, HTML, Fax, Auto-file reports to the FREE* Nexus WOW Portal... and more.

Spool-Explorer -- End-users can quickly view and manage reports, create spreadsheets, create PDFs, print page ranges, cut and paste... and more.

Launch EZ-Pickin's models and view reports interactively as shown above. End-users will become self sufficient and more productive. Try these award winning tools on a FREE trial basis.

EZ-Pickin's Features:

- Extract Data

Customer Quotes:

"EZ-Pickin's does an incredible job when paired with Catapult of splitting, converting and auto-distributing reports via e-mail..."
IMC HOLDINGS

"The ability to take an existing report and create a spreadsheet just by creating a "rule" has been a godsend to us. These tools have saved me from having to do more sorts and reports. I've never gotten so many Thank You's."
